

NAKANO SPRING ORIGINAL PRODUCT LINE UP

- 1** The products below are Nakano Spring Company's original springs.
They are based on OE products, but have been modified for general use.
If you are not sure of the exact model required, please choose from the product below which has the nearest measurements.
If you wish to order based on exact measurements as per the spring you need to replace, please send us the measurements.
- 2** We specialize in manufacturing custom-made springs. If you require springs which are not included in the line up below, please do not hesitate to contact us. We can make springs exactly as per your requirements, if it is within our factory capacity.
- 3** We can manufacture all sorts of leaf springs, from multi leaf spring assemblies to parabolic springs, springs for special purpose vehicles and industrial machinery. Contact us and let us know your requirements, and we will let you know whether we can manufacture or not.
Please note, we do not manufacture "Z-type" springs or coil springs.
- 4** We can manufacture leaf springs for all types of trucks and buses, but majority of our products are for Japanese made trucks. We have ample stock of such products.
- 5** Please contact us for price quotation. Price will depend on size and order quantity. Prices will be ex-works in Tokyo, Japan, but we can also offer shipping costs (and can arrange shipment) to destination of your choice.
Don't forget to mention your expected ordering quantity when you send us your inquiry.
- 6** Our prices will be much lower than OE (genuine) products, but with same or better quality, based on our experience of over 100 years producing leaf springs. This is the advantage we have over OE products.
- 7** The line up below is still limited, but we will add new items to our line up periodically so the list will keep growing.
- 8** If you have any questions about the product line-up or any other point which you need further explanation, please do not hesitate to contact us using our "contact form". We will send reply to all messages received.
